

ARJUN MENON

Python Full Stack Developer | AI & Data Applications

Bengaluru, Karnataka, India | +91 98765 43210 | arjun.menon.dev@example.com | linkedin.com/in/arjunmenon | github.com/arjunmenon

PROFESSIONAL SUMMARY

Python Full Stack Developer with 5+ years of experience building web applications, REST APIs, data-driven services, and cloud-based solutions. Experienced in Python, Django, FastAPI, React, PostgreSQL, Docker, Azure, and machine learning workflows. Strong background in translating business requirements into maintainable software and working across the complete application lifecycle.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML5, CSS3

Backend: Django, Django REST Framework, FastAPI, Flask, REST APIs

Frontend: React, Redux, Bootstrap, Responsive Web Design

Databases: PostgreSQL, MySQL, MongoDB, Redis

Cloud & DevOps: Microsoft Azure, Docker, Git, GitHub, CI/CD, Linux

Data & AI: Pandas, NumPy, scikit-learn, TensorFlow, Machine Learning

Tools: Postman, Jupyter Notebook, VS Code, Jira

PROFESSIONAL EXPERIENCE

Senior Python Developer — TechNova Solutions Pvt. Ltd.

Bengaluru, India | Jan 2023 – Present

- Designed and maintained FastAPI and Django REST services supporting internal business applications and customer-facing workflows.
- Built React-based dashboards for operational reporting, reducing manual reporting effort by approximately 35%.
- Optimized PostgreSQL queries and backend APIs, improving average response time for key endpoints by about 30%.
- Implemented Docker-based development and deployment workflows and integrated automated testing into CI/CD pipelines.
- Worked with Azure services for application hosting, storage, monitoring, and secure configuration management.

Python Developer — DataBridge Analytics

Kochi, Kerala, India | Jul 2020 – Dec 2022

- Developed Python applications for data ingestion, validation, transformation, and automated reporting.
- Created REST APIs using Django REST Framework and integrated PostgreSQL and MongoDB data sources.
- Built data-processing pipelines using Pandas and NumPy and supported machine learning model preparation.
- Developed reusable modules, unit tests, logging, and error-handling utilities for production applications.
- Collaborated with analysts and business teams to convert reporting requirements into maintainable software features.

Junior Software Developer — CodeCraft Technologies

Thiruvananthapuram, Kerala, India | Jun 2018 – Jun 2020

- Developed Python and JavaScript modules for web applications and internal automation tools.
- Implemented frontend components using HTML, CSS, Bootstrap, and JavaScript.
- Worked with SQL databases, Git-based source control, debugging, and application support.

EDUCATION

Master of Computer Applications (MCA)

University of Kerala

Thiruvananthapuram, Kerala, India
2020 – 2022

Bachelor of Engineering (B.E.)

Computer Science and Engineering

Visvesvaraya Technological University

Karnataka, India
2014 – 2018

All India Senior School Certificate Examination

Central Board of Secondary Education

2014

CERTIFICATIONS

- **Microsoft Certified: Azure Developer Associate** — Microsoft (2024)
- **Microsoft Certified: Azure AI Fundamentals** — Microsoft (2023)
- **Google Cloud Professional Data Engineer** — Google Cloud (2023)
- **Machine Learning Specialization** — Coursera / DeepLearning.AI (2022)
- **TensorFlow Developer Certificate** — TensorFlow (2022)
- **Python for Data Science** — IBM (2021)

SELECTED PROJECTS

AI Resume Screening Platform

Built a Python/FastAPI service that extracts resume entities, normalizes skills, matches candidates against job descriptions, and produces structured ATS-ready profiles.

Sales Forecasting Dashboard

Developed a React and Python dashboard for sales forecasting and KPI reporting using Pandas, scikit-learn, PostgreSQL, and Azure.

Document Processing Pipeline

Implemented PDF/DOCX extraction, layout handling, text reconstruction, section detection, and structured entity extraction for resumes.
