

MEERA KRISHNAN

Chennai, Tamil Nadu | +91 96XXXXXX63 | meera.krishnan.ds@example.com | linkedin.com/in/meerakrishnan

PROFESSIONAL SUMMARY

Data Scientist with 3+ years of experience in data analysis, machine learning and predictive modeling. Strong Python, Pandas, NumPy and scikit-learn background with experience building data pipelines and analytical dashboards. Backend web development is not the primary area of expertise.

TECHNICAL SKILLS

Languages: Python, SQL

Frameworks & APIs: scikit-learn, TensorFlow, Jupyter, Streamlit

Databases & Cloud: Pandas, NumPy, PostgreSQL, BigQuery

Tools: Git, Docker, MLflow, Power BI, Jupyter Notebook

PROFESSIONAL EXPERIENCE

Data Scientist — InsightArc Analytics | Sep 2023 – Present

- Developed predictive models for customer churn, demand forecasting and risk classification.
- Built Python data-processing pipelines using Pandas and NumPy for large operational datasets.
- Performed feature engineering, model evaluation and hyperparameter tuning using scikit-learn.
- Created analytical dashboards and communicated model findings to business stakeholders.

Junior Data Analyst — MarketPulse Research | Jul 2021 – Aug 2023

- Prepared and validated datasets using Python and SQL for recurring business reports.
- Developed exploratory data analysis notebooks and automated data-quality checks.
- Supported machine learning experiments and maintained reusable data preparation modules.

PROJECTS

Customer Churn Prediction

Built a machine-learning pipeline to predict customer churn and identify high-risk customer segments.

Technologies: Python, Pandas, scikit-learn, PostgreSQL, MLflow

Sales Forecasting

Developed a forecasting workflow using historical sales data and created dashboards for business users.

Technologies: Python, NumPy, Pandas, TensorFlow, Power BI

EDUCATION

M.Sc. in Data Science — University of Madras | 2019 – 2021

CERTIFICATIONS

- IBM Data Science Professional Certificate – 2022
- Microsoft Certified: Azure Data Scientist Associate – 2024
