

ANJALI MENON

Kochi, Kerala | +91 97XXXXXX45 | anjali.menon.dev@example.com | linkedin.com/in/anjalimenon

PROFESSIONAL SUMMARY

Python Developer with 3 years of experience developing lightweight backend services, data APIs and automation tools using Python, FastAPI and Flask. Strong knowledge of REST APIs, PostgreSQL, MongoDB and Docker. Limited hands-on experience with Django.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript

Frameworks & APIs: FastAPI, Flask, REST APIs, Pydantic

Databases & Cloud: PostgreSQL, MongoDB, Redis, AWS

Tools: Git, GitHub Actions, Docker, PyTest, Postman, Linux

PROFESSIONAL EXPERIENCE

Python Backend Developer — CloudNest Analytics | Aug 2023 – Present

- Developed asynchronous REST APIs using FastAPI for analytics and document-processing services.
- Created Pydantic models, validation layers and reusable service modules for production APIs.
- Integrated PostgreSQL and MongoDB data sources and optimized database access for reporting workloads.
- Containerized applications with Docker and automated tests and deployment using GitHub Actions.
- Implemented structured logging, exception handling and API monitoring.

Software Developer — WebStack Labs | Jul 2021 – Jul 2023

- Built Flask-based internal applications and REST endpoints for business automation workflows.
- Developed Python scripts for data transformation, validation and scheduled reporting.
- Worked with SQL databases, Git, Linux and Postman while supporting production issues.

PROJECTS

Document Processing API

Created a FastAPI service that accepts documents, validates metadata and exposes extracted information through REST endpoints.

Technologies: Python, FastAPI, PostgreSQL, Docker

Reporting Automation Service

Built a Flask application for scheduled report generation and data validation.

Technologies: Python, Flask, MongoDB, Redis

EDUCATION

B.Tech in Information Technology — APJ Abdul Kalam Technological University | 2017 – 2021

CERTIFICATIONS

- Python for Everybody – 2023
- AWS Certified Cloud Practitioner – 2024
